SUMMARY

Full Stack Developer with over 2 years of hands-on experience building dynamic, scalable, and user-focused web applications using the MERN Stack, Next.js, Laravel, and modern development tools. Proven expertise in designing robust backend architectures, developing responsive and accessible frontends, and integrating RESTful APIs to ensure seamless user experiences. Skilled in writing clean, maintainable code following industry best practices, with a strong focus on performance, scalability, and code quality. Experienced in building secure, modular backend systems with Laravel and integrating them seamlessly with modern frontend frameworks. Committed to continuous learning and staying up-to-date with emerging technologies. Thrive in collaborative, fast-paced environments and enjoy solving complex technical challenges with structured, efficient solutions.

WORK EXPERIENCE

Cspocket- Full Stack Developer May 2023 - May 2025

MERN AND NEXTJS

Printrove:

- **Modular UI Components**: Developed **reusable frontend components** for a consistent and maintainable UI across **Admin** and **Vendor dashboards**.
- **API-Driven Workflows**: Integrated **66+ REST APIs** and built over **120 dynamic forms** to manage **real-time product, inventory**, and **order workflows**.
- **Advanced Filtering & Reports**: Created custom **filtering and reporting modules** using **React.js** and **Node.js**, powering fast and accurate **data-driven operations**.

Eticos:

- **End-to-End Modules**: Built complete modules for **Appointments**, **Billing**, **Patient Records**, and **Internal Task Tracking** with clean workflows.
- **Mobile-Ready Design**: Ensured full **responsive design** and architecture ready for integration with **mobile or hybrid apps** (React Native, Flutter, etc.).
- **Real-Time API Integration**: Improved interdepartmental collaboration by integrating **real-time REST APIs** for seamless data exchange across departments.

Rajmall:

- **Multi-Platform Development**: Developed and maintained portals like **Rajmall**, **Cspocket**, and internal **HR systems**, supporting both customer and admin functionalities.
- **Optimized Data Handling**: Enhanced **API performance** and **state management** using **TanStack Query** for smart caching, loading control, and seamless user experience.

LARAVEL PROJECTS

GMS – Courier Management & Reporting System:

- **Full-Featured System**: Developed end-to-end courier management including **booking, tracking, delivery**, and
- **role-based access** for Admin, Courier, and Client.
- **Advanced Reports**: Created **dynamic report modules** with filters (date, customer, branch, delivery status) and **export to Excel/PDF** via PHPExcel.
- **Smart Pricing & Reconciliation**: Added logic for **delivery charges, COD reconciliation, distance-based pricing**, and **late delivery penalties**.
- **Optimized Performance**: Improved speed and scalability using **Eloquent query scopes**, **server-side pagination**, and **DataTables** with fast search and filters.

CsdExpress:

- **Modular Architecture**: Built with Laravel's MVC structure to separate Admin and User functionalities for better scalability and code maintenance.
- **Secure Role-Based System**: Implemented Laravel Authentication with custom middleware to handle Admin and User roles (login, redirection, access control).
- **Logistics Operations Dashboard**: Created Admin tools to manage shipments, users, service status, and reporting — plus a real-time User Panel to track courier status and profile updates.

Esavi:

- **Admin/User Panels with Analytics**: Developed role-based dashboards showing user registration trends, daily activity, and land record requests using 12 types of charts (Bar, Pie, Line, Donut, etc.) via Chart.js / ApexCharts.
- **Land Services Modules**: Integrated features like **Patta View**, **Chitta Details**, and **Patta Transfer Request**, allowing users to apply, track status, and download official documents digitally.

SKILLS

Languages:
JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks/Libraries:
React.js, Next.js, Laravel.

Styling:
Chakra UI, Tailwind CSS, Bootstrap, Material UI, Styled Components

Languages/Frameworks:
Node.js, Express.js, NestJS

APIs: RESTful API Development, Swagger

Security:

JWT, bcrypt

NoSQL:
MongoDB, Mongoose

SQL: MySQL

Version Control: Git, GitHub

Testing & API: Postman

Deployment: Vercel, Netlify, Render, Hostinger
